Dear Judy

Thank you for seeing Bryan Botterill with history of mixed anxiety & depression for over ten years . He has been on& off on Escitalopram 10 mg daily for the last five weeks with no improvement of his condition . Bryan suffers from severe eczema wich is badly impacting on his depressive & anxiety symptoms . He suffers from insomnia and that affecting his life style and his ability to have or maintain a job. Your care would be much appreciated .

Regards,

**Dr Mary Hanna**
